

GUARDIAN

Wireless Falls Alarm System

WHY CHOOSE THE GUARDIAN?

A streamlined wireless design that fits perfectly into any nurse call system, our Guardian is specifically made to address the limitations of traditional falls alarm systems.

✔ Compatibility

Seamlessly integrates into any nurse call system; meaning you do not need to replace your existing system.

✔ Less Wires Less Hassle

Wireless within the room – nothing for residents, carers or visitors to trip over.

✔ Easy to Operate

The Guardian setup is a simple plug-and-go formula with both floor and seat mats having identical procedures.

✔ No Need for Nurse Call

The Guardian doesn't require a nurse call system to function. It can operate as an alarm in its own right, either mains or battery-powered.

✔ Sleek and Modern

The Guardian represents the latest in falls alarm technology blending modern functionality and features with a sleek, clean design.

PIONEERING SAFETY

The Guardian was designed with safety at the forefront of mind and it aims to be as equally liberating as it is secure.
