Prime Comfort Plus Static Mattress

The Prime Comfort Plus Static Mattress is an excellent static mattress providing great patient comfort. Side wall construction encases the foam, enhancing stability for the patient and assisting in patient transfer. A castellated foam top allows excess heat to escape from beneath the foam, preventing the patient from overheating whilst laid on the mattress. Keyhole slots in the high density base aid profiling, and it is available in three different sizes to suit a variety of patients.

HIGHLIGHTS

- Side Wall Construction
- Castellated Foam Top
- 39 Stone Max Patient Weight
- 3 Sizes Available
- 3-Year Warranty

KEY PRODUCT FEATURES

- **Side Wall Construction:** Encases the foam, enhancing stability and assisting with patient transfers.
- **Castellated Foam Top:** Allows excess heat to escape, preventing the patient from overheating.
- **Excellent Pressure Redistribution:** Suitable for patients at high risk of developing pressure ulcers.
- **Keyhole Slots in Base:** High density base with keyhole slots to aid profiling on electric beds.

Important Safety Notice

Harvest Healthcare Ltd. supplies equipment and appliances to cover a range of medical conditions. Specific choice of equipment is the sole responsibility of the clinical practitioner or carer overseeing individual patient care. Harvest Healthcare Ltd supplies a range of products such as foam mattresses, active air mattresses, fall protection mats and bed rail protection bumpers. These products are usually covered in vapour-permeable PU fabric that could cause a risk of suffocation in the event of prolonged facial contact. Mattress risk categories are to be used as a guide only. Risk assessments specific to the user must be carried out prior to the use of all products. Products and data continually undergo development and may therefore deviate from the details given.
